Certification

This process certificate is based on the Work Field-Specific Certification Scheme for Asbestos Removal Process Certificates, as included in Schedule XIIIa to Section 4.27 of the Dutch Working Conditions Regulation and in accordance with the certification rules issued by Normec Certification B.V.

Normec Certification B.V. certifies that it has the legitimate expectation that the process of removing asbestos, asbestos-containing products, and asbestos-contaminated materials or asbestos-contaminated construction elements prior to the demolition, renovation or maintenance of buildings and structures, and after incidents, including completion of the asbestos removal work, resulting in a location that is free of secondary asbestos fibre exposure sources, will be carried out in accordance with the relevant requirements set out in Schedule XIIIa to Section 4.27 of the Dutch Working Conditions Regulation.

Suggestions for the contractor/client

1. The certificate holder:
 - a. will continue to meet the relevant requirements of Schedule XIIIa during the term of the process certificate;
 - b. will lend its assistance to any reviews conducted by the certification agency;
 - c. will return a process certificate that has been rendered invalid to the certification agency within 14 days of a signed request to that effect; and
 - d. will notify the certification agency of any changes as referred to in Clause 4(2) of Schedule XIIIa.

For Normec Certification B.V.

mr. M.M.A. Princen
